Paragliding
Sound Engineer & Producer

EXPERIENCE

App-Akademie

App-Development

Aug 2023 - Present, Berlin

I independently led the development of a cross-platform mobile application for both iOS and Android using Flutter and Dart. This involved seamlessly integrating Firebase Firestore for efficient data management and synchronization across platforms. In addition, I personally designed the user interface and experience using Figma, ensuring a seamless and visually appealing design that enhances user engagement. Collaborating with Kotlin for Android development and leveraging Swift and Xcode for iOS implementation, I ensured platform-specific optimizations and performance enhancements, resulting in a polished and high-performing application.

IT Consultant

AS Bueropartner Freiburg

Nov 2021 - Mar 2022, Freiburg

Providing IT consulting for a web client's ERP software and assisting mid-sized company executives in database management.

Application Developer

Loy & Hutz

Oct 2020 - Mar 2021, Freiburg

Developed CAFM module using the C#-based language Waveware, designed web module app for project management for both web and FAT client, and authored unit tests for existing clients.

EDUCATION

Bachelor of Mathematics

Albert-Ludwigs-Universität Freiburg

2014-2020, Freiburg

Specialized in Stochastics and Statistics, with a B.Sc. focused on Nonparametric Kernel Density Estimation
